PROFILE

Informatics Engineering graduate from Universitas Pamulang with a strong interest in Android Development, IT Support, Web Development, and Data Analysis (Excel & basic SQL). A Bangkit Academy 2023 Mobile Development cohort alumnus, proficient in Kotlin, JavaScript, PHP, and React. Comfortable working independently or in a team, and highly motivated to keep learning the latest technologies.

WORK EXPERIENCE

Web Programmer (Fullstack)
Feb 2026 – Present

PT Asoka Indonesia

- Developed and maintained secure web, mobile, and backend systems using PHP, Redis, Flutter, and Tailwind CSS with Linux server deployment.
- Supported internal company operations and improved data access, mobility, and application stability.

IT Support
Sep 2025 – Dec 2025

PT Evolusi Kreasi Indonesia (Evolusi 3D)

- Provided IT infrastructure support for hardware, software, and LAN networks.
- Installed, updated, and troubleshot operating systems and applications.
- Diagnosed and resolved hardware and software issues efficiently.
- Assisted Arduino-based automation and wiring projects for internal systems.

PROGRAMS & TRAINING

Bangkit Academy 2023
2023

Mobile Development Cohort — 2023

- A digital talent development program by Google, GoTo, and Traveloka; focused on Android application development with Kotlin and professional software engineering practices.

EDUCATION

Bachelor of Informatics Engineering
